## ***Winter is coming . . .***

The Washington Township Fire Official has asked residents to note the location of your neighborhood fire hydrant. Winter is upon us and your local Fire Department needs your help. Clearing the snow from your fire hydrant can be a matter of life and death. Time is of the essence and a delay in locating a water source during a fire can be tragic for life and property. Please take the time to locate your neighborhood fire hydrant(s). A 36-inch perimeter should be cleared of snow around the fire hydrant, and it should be visible from the road. Snow should be cleared from all of the side caps as well as the operating nut located on the top of hydrant. Even though the fire hydrant may not be located in front of your home, this act will benefit your family, neighbors, community, and firefighters.

Also, when placing your garbage containers and recycling material out for pick-up on your scheduled day please do not place in the street. Containers/materials should be placed **behind** the curb line. This is an obstacle for snow plow drivers and can also create a hazardous condition to the traveling public. The Public Works Department will not be liable for any overturned or damaged containers related to snow removal. (Ordinance #10-12)

Your cooperation is appreciated.
